BOMBOLA MIX M10x1 110bar 100gr
senza piedino (86%Ar-14%CO2)

NOT REFILLABLE TPED/TPER STEEL CYLINDER

Technical Data
NOT REFILLABLE TPED/TPER STEEL CYLINDER

Material: high strength steel alloy E355M
Cylinder Thread: M10x1
Finishing: color coated

Labelling: personalized label on demand
Packaging: personalized box on demand

Sizes and Specifications

TYPE	VOLUME (L)	WORK PRESSURE (bar)	DIAMETER (mm)	HEIGHT (mm)	WEIGHT (kg)	CO2 (kg)	N2O (kg)	O2, HE, N2, mix (L)

With polymer base	-	-	-	+ 1	-	-	-	-

Any of the above mentioned sizes

Transport Classification

UN No.	DESCRIPTION	CLASSIFICATION	LABELS	DA
1006	COMPRESSED ARGON	1A	2.2	ASPHYIATING
1013	CARBON DIOXIDE	2A	2.2	ASPHYIATING
1046	COMPRESSED HELIUM	1A	2.2	ASPHYIATING
1066	COMPRESSED NITROGEN	1A	2.2	ASPHYIATING
1073	COMPRESSED OXYGEN	1D	2.2+5.1	OXIDISING

Handling – Storage – Disposal
Gas-based containers cannot be directly exposed to sunshine rays, nor be closed to heat sources or in places where temperature can reach 50°C or more.
Ensure proper ventilation (natural or forced) where cylinders are stored and/or used.
Carefully handle the cylinders thus avoiding violent collisions between them or against surfaces, as well as falls and other mechanical strains susceptible to damage their integrity.
Completely empty bottle should be disposed with other ferrous metals or according to local regulation

Descrizione Scheda prodotto

Prodotto	Bombola usa e getta M10x1
Modello	MIX (86%Ar-14%CO2)
Tipo	Usa e getta
Codice doganale	28042100
Codice a barre	8056300371946
Gas di riempimento	Miscela Argon 86% - CO2 14% (UN1956)
Volume/Peso contenuto	950ml - 100g
Pressione di riempimento	110bar (PW116 - PH174bar)
Contenitore	Recipiente a pressione omologato T-PED
Valvola	M10x1 rhe - con dispositivo automatico di chiusura
Omologazione/Norma	Certificazione TUV SUD
Marcatura articolo	n° lotto - mm/aa
Peso	1,35kg
Produttore	Oxyturbo spa
