BOMBOLA ARGON M10x1 110bar
senza piedino

NOT REFILLABLE TPED/TPER STEEL CYLINDER

Technical Data

NOT REFILLABLE TPED/TPER STEEL CYLINDER

Material: high strenght steel alloy E355M
Cylinder Thread: M10x1
Finishing: color coated

Labelling: personalized label on demand
Packaging: personalized box on demand

Product Certification

Technical Standard: EN ISO 11118:2015

ITALCERT LRQA

BATCH N° xxxx
DATE xxxxxxx

With polymer base	-	-	-	+ 1	-	-		

* Any of the above mentioned sizes

Transport Classification

UN No.	TRANSPORT CLASSIFICATION DESCRIPTION	CLASSIFICATION	LABELS	DANGER
1006	COMPRESSED ARGON	1A	2.2	ASPHYXIATING
1013	CARBON DIOXIDE	2A	2.2	ASPHYXIATING
1046	COMPRESSED HELIUM	1A	2.2	ASPHYXIATING
1066	COMPRESSED NITROGEN	1A	2.2	ASPHYXIATING
1072	COMPRESSED OXYGEN	1O	2.2+5.1	OXIDISING

Handling – Storage – Disposal

Gas-based containers cannot be directly exposed to sunshine rays, nor be closed to heat sources or in places where temperature can reach 50°C or more.
Ensure proper ventilation (natural or forced) where cylinders are stored and/or used.
Carefully handle the cylinders thus avoiding violent collisions between them or against surfaces, as well as falls and other mechanical strains susceptible to damage their integrity.
Completely empty bottle should be disposed with other ferrous metals or according to local regulation

System Certification

Descrizione Scheda prodotto	
Prodotto	Bombola usa e getta M10x1
Modello	Argon (Ar)
Tipo	Usa e getta non ricaricabile
Codice doganale	28042100
Codice a barre	8011971486313
Gas di riempimento	Argon (UN1006)
Volume/Peso contenuto	950ml - 185g
Pressione di riempimento	110bar (PW116 - PH174bar)
Contenitore	Recipiente a pressione omologato T-PED
Valvola	M10x1 rhe - con dispositivo automatico di chiusura
Omologazione/Norma	EN ISO 11118:2015
Marcatura articolo	n° lotto - mm/aa
Peso	1,35kg
Produttore/Rivenditore	Oxyturbo spa
