TURBO SET 110 O2 M12x1Dx -Gas//Map CGA600

Technical Data Sheet	basic features
Description	Braze welding set
Product	kit for oxy-propylene welding
Model	TURBO SET 110
Type	Welding Gas Equipment
Customs tariff	84682000
Barcode	8011971115053
Gas to be used	Oxygen (O2 UN1072) and Turo Gas PRO (Propylene UN1077)
Average minimum duration	Turbo gas PRO 4,5h - Oxygen 0,5h
Approval certificate	Apragaz EN ISO 5172 - EN ISO 2503 - EN 1327
Marking	Batch Nr. on the trolley / Manufacturer logo on the handgrip
Max Temperature	3.050°C
Safety devices	Nr. 2 built-in Flashback arrestors on the regulator/gas tap and Nr. 2 in the handgrip
Flexible hoses lenght	m2,0
Ignition device	Manual
Flame spread device	Assemblied Nozzle (2 components) with integrated support device
Oxygen Pressure reducer	MIGNON oxygen pressure reducers with buil-in Flashback arrestor, Apragaz approved in compliance with the UNI EN ISO 2503 regulation
Gas tap	CGA600 Tap with built-in Flash Back arrestor, DVGW approved in compliance with the EN512-417 Regulation
Included Accessories	Protective goggles - Lighter - Multipurpose spanner - 4 nozzles star (63-100-250-315L) - Filler Metals-n°3 spare parts O.Ring
Transportation device	Metal red painted Trolley (Ral 3000) with fastening brakets for the bottles
Weight	6,2kg
Manufacturer	Oxyturbo spa
